

C16 report

Since the C&CC held in Singapore, C16 held two meetings in the fringe of the ICPP in Vancouver and the EPS Plasma Physics meetings in Prague with those members who attended the meeting. The topics of the discussion cover mainly how the Commission may increase its internal relationship and to improve further the way the selection of the YSP winner is performed.

At the ICPP, the Chair of the C16 gave a short welcome note at the beginning of the meeting. He also gave the YSP 2018 award to Prof. E. Viezzer. A note about the conference appeared in the IUPAP Newsletter.

At the EPS Plasma Conference, IUPAP co sponsored 3 Best Poster Awards:

Nominations for 2 two Associate Members were submitted to IUPAP for decision at the November C&CC.

Ranking of conferences submitted for support by IUPAP was also submitted for decision by the C&CC.
